PROFILE SUMMARY

I am a Civil Engineering graduate from SRKR Engineering College, Bhimavaram, with a CGPA of 7.65. Alongside my academic background, I have built a solid technical skill set, including Java, HTML, CSS, JavaScript, PHP, Bootstrap, and jQuery. Additionally, I am proficient in AutoCAD 2D and 3D design. I have hands-on experience in web development, designing responsive websites, and tailoring solutions to specific project needs. With a strong work ethic, quick learning abilities, and a commitment to continuous improvement, I am confident in my ability to contribute effectively to any team and am eager to grow within a dynamic environment.

Projects

90 Days

EFFECT ON NANO SILICA ON MECHANICAL PROPERTIES OF CEMENT
BASED ON THE USAGE OF NANO SILICA TESTED THE STRENGTH OF THE CEMENT

14 Days

Wedding Win
Developed an invitation management feature for the Weddinwin.ca website, allowing users to create customized invitations for weddings, functions, and other events. Users can add guests to their invitations, enabling guests to view details and respond with their attendance status and other answers to custom questions. This feature facilitates seamless interaction between event organizers and guests, streamlining the RSVP process.

Days

Pujari Booking
Collaborated in a team to develop a project on pujaribooking.com for users looking to book priests for various events and ceremonies. The platform also allows users to book online pujas and reserve essential event suppliers, such as tent rentals, catering services, and more

3 Days

Hours Of Operation
Implemented a Hours of Operation feature on CantonShoppingGuide.com, enabling vendors to add and manage their shop availability. This functionality allows vendors to specify open and closed times, making it easy for customers to view accurate and up-to-date operating hours.
